directly or as ruthlessly. Gornick's groundbreaking book confronts what Edna O'Brien has called "the principal crux of female despair": the unacknowledged Oedipal nature of the mother-daughter bond. Born and raised in the Bronx, the daughter of "urban peasants," Gornick grows up in a household dominated by her intelligent but uneducated mother's romantic depression over the early death of her husband. Next door lives Nettie, an attractive widow whose calculating sensuality appeals greatly to Vivian. These women with their opposing models of femininity continue, well into adulthood, to

affect Gornick's struggle to find herself in love and in work. As Gornick walks with her aged mother through the streets of New York, arguing and remembering the past, each wins the reader's admiration: the caustic and clear-thinking daughter, for her courage and tenacity in really talking to her mother about the most basic issues of their lives, and the still powerful and intuitively-wise old woman, who again and again proves herself her daughter's mother. Unsparing, deeply courageous, *Fierce Attachments* is one of the most remarkable documents of family feeling that has been written, a classic that helped

not pets, or ghosts, or robots. They're real people, but how can a person living in Berlin walk freely through the living room of someone in Sydney? How can someone in Bangkok have breakfast with your children in Buenos Aires, without your knowing? Especially when these people are completely anonymous, unknown, unfindable. The characters in Samanta Schweblin's brilliant new novel, *Little Eyes*, reveal the beauty of connection between far-flung souls--but yet they also expose the ugly side of our increasingly linked world. Trusting strangers can lead to unexpected love, playful encounters, and

marvelous adventure, but what happens when it can also pave the way for unimaginable terror? This is a story that is already happening; it's familiar and unsettling because it's our present and we're living it, we just don't know it yet. In this prophecy of a story, Schweblin creates a dark and complex world that's somehow so sensible, so recognizable, that once it's entered, no one can ever leave.

A finalist for the National Book Critics Circle Award for Criticism, Vivian Gornick's *The End of the Novel of Love* explores the

meaning of love and marriage as literary themes in the twentieth century. In *The End of the Novel of Love*, an acclaimed and provocative collection of criticism, Gornick applies the same intelligence, honesty, and insight that define her memoirs to an analysis of love and marriage as literary themes in the twentieth century. She examines the work and lives of several authors she admires—including Grace Paley, Willa Cather, Jean Rhys, George Meredith, Jane Smiley, Richard Ford, and Andre Dubus—to ultimately posit that love, sexual fulfillment, and marriage are now exhausted as the

metaphorical expressions of success and happiness. Spanning the depths of common experience and the expanse of twentieth century literature, Gornick crafts an argument that is as defined by discourse as it is by the power of her language, which is gracefully poised between objective knowledge and subjective experience. In these eleven essays, she comes to see that, for most writers, like most readers, it is the drama of our angry and frightened selves in the presence of love that is our modern preoccupation. The End of the Novel of Love is a strikingly original and thought-

"Somos lo que nos han hecho, lentamente al correr los años", escribió María Teresa León. El problema es que la sociedad, al correr los años, solo valora un tipo de poder: el político que va unido, o busca, al económico. El feminismo ha pasado de enarbolar la bandera del pacifismo y de la defensa de los derechos civiles que caracterizó a las sufragistas (...) a considerar la toma del poder como objetivo principal y necesario
