A free open access ebook is available upon publication. Learn more at www.luminosoa.org. Persian is one of the great lingua francas of world history. Yet despite its recognition as a shared language across the Islamic world and beyond, its scope, impact, and mechanisms remain underexplored. A world historical inquiry into pre-modern cosmopolitanism, *The Persianate World* traces the reach and limits of Persian as a Eurasian language in a comprehensive survey of its geographical, literary, and social frontiers. From Siberia to Southeast Asia, and between London and Beijing, this book shows how Persian gained, maintained, and finally surrendered its status to imperial and vernacular competitors. Fourteen essays trace Persian's interactions with Bengali, Chinese, Turkic, Punjabi, and other languages to identify the forces that extended "Persographia," the domain of written Persian. Spanning the ages of expansion and contraction, *The Persianate World* offers a critical survey of both the supports and constraints of one of history's key languages of global exchange.

Examines the Taliban and its form of Islamic fundamentalism, explains how the organization rose to power, and discusses its impact on Afghanistan and why the country has become a center for international terrorism.

Irfan Ahmad makes the far-reaching argument that potent systems and modes for self-critique as well as critique of others are inherent in Islam--indeed, critique is integral to its fundamental tenets and practices. Challenging common views of Islam as hostile to critical thinking, Ahmad delineates thriving traditions of critique in Islamic culture, focusing in large part on South Asian traditions. Ahmad interrogates Greek and Enlightenment notions of reason and critique, and he notes how they are invoked in relation to "others," including Muslims. Drafting an alternative genealogy of critique in Islam, Ahmad reads religious teachings and texts, drawing on sources in Hindi, Urdu, Farsi, and English, and demonstrates how they serve as expressions of critique. Throughout, he depicts Islam as an agent, not an object, of critique. On a broader level, Ahmad expands the idea of critique itself. Drawing on his fieldwork among marketplace hawkers in Delhi and Aligarh, he construes critique anthropologically as a sociocultural activity in the everyday lives of ordinary Muslims, beyond the world of intellectuals. *Religion as Critique* allows space for new theoretical considerations of modernity and change, taking on such salient issues as nationhood, women's equality, the state, culture, democracy, and secularism.
