An engaging look at what led to the financial turmoil we now find ourselves in Bailout Nation offers one of the clearest looks at the financial lenders, regulators, and politicians responsible for the financial crisis of 2008. Written by Barry Ritholtz, one of today's most popular economic bloggers and a well-established industry pundit, this book skillfully explores how the United States evolved from a rugged independent nation to a soft Bailout Nation-where financial firms are allowed to self-regulate in good times, but are bailed out by taxpayers in bad times. Entertaining and informative, this book clearly shows you how years of trying to

control the economy with easy money has finally caught up with the federal government and how its practice of repeatedly rescuing Wall Street has come back to bite them. The definitive book on the financial crisis of 2008 Names the culprits responsible for this tragedy-from financial regulators to politicians Shows how each bailout throughout modern history has impacted what happened in the future Examines why the consumer/taxpayer is left suffering in an economy of bubbles, bailouts, and possible inflation Ritholtz operates a hugely popular blog, www.ritholtz.com/blog Scathing, but fair, Bailout Nation is a voice of reason in these uncertain economic times.

When Andrew Jackson was sworn in as President of the United States, he had come directly from his wife's funeral. His beloved Rachel had passed on Christmas Eve. Now a grieving widower with decades of public service behind him, he wished nothing more than to retire by his wife's grave until the wet earth would welcome him beside her. But thirty years before the Civil War, the southern states were preparing the road to secession. In Jackson's eyes, they were committing treason and none but he was strong enough to hold the nation together. Amid these crises of politics and spirit, Jackson is lost in a mountain storm and trapped across a flooded river, in a small Appalachian town. There, with a week's growth of beard and no Presidential finery, he enjoys his first taste of anonymity in forty years. As "Jack Andrews," he falls in love with Julie Spring, a beautiful, Kentucky widow with a young son, and finds his spirit renewed. Likewise, resigned to a life of toil and loneliness after the loss of her husband, Julie sees hope in the tall, charismatic and commanding figure whom she does not know is the hero of New Orleans, and President of the United States. Unfortunately, a last chance at happiness for both Julia Spring and Andrew Jackson, will be set directly against the President's ability to save a young Union from Civil War. In a blending of history and fiction, "A Full Measure of Happiness" reads like a novel of its time, dramatic, romantic and exciting. Kenny Golde is the author of two fiction novels, "A Full Measure of Happiness" and "Apollo Main," the story of a rebellion fought for the independence of the Lunar Colony. His non-fiction book, "The Do-It-Yourself Bailout," a guide to negotiating credit card debt settlement directly with your lenders, was published in 2013 by Barricade Books. He is also a professional screenwriter, with movies to his credit, including "Walking with the Enemy," a WWII drama featuring Academy Award winner Ben Kingsley, and an adaptation of the classic, Isaac Asimov Sci-Fi love story "The End of Eternity" for 21st Century Fox.

The most recognizable tax expert in the nation, Roni Lynn Deutch has helped save American taxpayers tens of millions of dollars from the clutches of the IRS. Owner of the nation's largest tax-resolution firm and a new tax-preparation franchise, Deutch knows the IRS has no problems taking advantage of taxpayers who might be uninformed about tax laws or who are unable to pay due to financial troubles. And the IRS pressure is only going to get worse. With almost \$2 trillion in government bailout money approved by Congress for 2008 and 2009 in

addition to a hefty stimulus package, you better believe Uncle Sam has no intention of being stuck with the tab. So how is the government going to get that money? Through taxes, of course, and the IRS is going to audit people at unprecedented rates. And they are going to raise the rates on existing taxes to historically high levels. If you're behind on your taxes, the government is coming after you. Millions of Americans may be down on their luck and hurting financially, but the IRS, whose sole purpose is to confiscate the assets of American taxpayers, will seek you out, regardless of your ability to pay. It's up to you to protect yourself, and that's where the Tax Lady comes in. Deutch identifies what the IRS can do to you if you fall behind on your taxes - wage garnishments, tax levies and liens, interest and penalties, and ruined credit - and how you can prevent these things from happening or fight back if they do. In the book; Why your taxes are going to rise in this economy Steps to avoid getting yourself into back taxes Your options when confronted by the IRS When to file and how to balance withholdings When it's not a situation you can handle yourself and is time to see a professional Get a bailout of your own - Surviving the Coming Tax Disaster will show you how!

Drawing on his two decades as a financial reporter, plus three recent years working on Wall Street, Ron Insana helps readers restore their depleted portfolios by showing them: ? How to determine reemerging opportunities in submerged markets ? Where to invest in really legit real estate ? How to magnify the magnificent opportunities in municipal bonds and Treasury Inflation Protected Securities (TIPS) ? Where to go mining for the rare gems among the heaps of junk bonds The paperback edition is completely revised and updated with timely advice for a recovering economy. For anyone sifting through retirement- account wreckage or a tanking net worth, How to Make a Fortune from the Biggest Market Opportunities in U.S. History is the ultimate rescue manual for reaping rich rewards.

Are you stuck in an underwater home you want to sell? What are your options when you can afford your home but don't have the equity needed to sell it? Where's your bailout? Attempting a short sale, walking away, begging for a loan modification or principal reduction on your mortgage seem to be the only options available to underwater homeowners. Are you tired of waiting for the government and Wall Street to solve your negative equity problem? It's time to create your own housing bailout! The Underwater Social walks you through the Nine Critical Steps responsible underwater homeowners need to take to build equity quickly and position themselves for a successful home sale sooner rather than later! The Underwater Social was written by Paul C Aspelin for the millions of homeowners who are living within their means and paying their mortgages on time each and every month and need or want to sell their homes but cannot because of a negative equity (underwater) situation. The equity in your home has eroded over the last few years due to no fault of your own, and you have no idea where to turn for answers. Are you stuck wondering how a simple home purchase could have created such a financial mess for your family? You're not alone. It seems as though everyone around you is getting a bailout while you continue to do the responsible thing and are expected to sit back and wait for your home equity to return. Many of you may be thinking of attempting a short sale or even considering a strategic mortgage default, which is to simply walk away from your home and its future mortgage obligations, even though you can financially afford to make all payments. Saving your credit rating, fear of failure, and/or the morality issues involved in these decisions are the only things keeping you in your underwater home. Have you been turned down for a mortgage modification or principal reduction? Or unsuccessfully tried to sell your home in the past few years, only to realize you couldn't afford to drop your price low enough to compete with the growing inventory of foreclosed and short sale homes? If you answered yes to these questions, this book provides a solution for you. Find out whether sitting back and waiting or renting out your home until the market rebounds is really the best long-term strategy. Learn why the housing bubble happened in the first place and how the housing crisis suddenly shifted from affecting those who were in over their heads to those who became casualties of the downturn. Discover what's looming ahead for the housing market and how quickly your home could start to appreciate. You'll be shocked to find out how long you may have to wait for home prices to rebound to pre-bubble values. This book breaks new ground with a powerful take-charge process, an easy-to-follow, step-by-step game plan that incorporates the help of industry

professionals while using a simple online system the banks pray you never find out about. You'll find out exactly what's involved in order to position yourself for a future home sale without financial hardship or ruined credit. Learning to execute a responsible plan of action to rebuild your home equity without drastically changing your current spending habits will change your underwater housing circumstances and the way you look at home ownership forever. The government has labeled you a mere casualty of the housing crisis, but to me, you're an underwater homeowner looking for a real solution. Now you have it in the Underwater Social! Buy the book today and be sure to write a review. We appreciate your feedback and support. Paul C Aspelin, author The Underwater Social: Create Your Own Housing Bailout
