the advanced engineering mathematics that students need to master. The extensive and thorough topic coverage makes this an ideal text for upper-level vocational courses and for undergraduate degree courses. It is also supported by a fully updated companion website with resources for both students and lecturers. It has full solutions to all 2,000 further questions contained in the 277 practice exercises.

Presents a graphic novel version of the lives of Edmund Hillary and Tenzing Norgay and their expedition to Mount Everest in 1953.
