European private international law, as it stands in the Rome I, II, and III Regulations and the recent Succession Regulation, presents manifold risks of diverging judgments despite seemingly harmonised conflict of law rules. There is now a real danger, in light of the rapid increase in the number of legal instruments of the European Union on conflict of laws, that European private international law will become incoherent. This collection of essays by twenty noted scholars in the field sheds clear light on the pivotal issues of whether a set of overarching rules (a 'general part') is required, whether an EU regulation is the adequate legal instrument for such a purpose, which general questions such an instrument should address, and what solutions such an instrument should provide. In analysing the possible emergence

of general principles in European private international law over the past years, the contributors discuss such issues and factors as the following: – the relationship between conflict of laws and recognition; - the room for party autonomy; - the concept of habitual residence; - adaptation when interplay between different laws leads to deadlock; - public policy exceptions; - the desirability of a general escape clause; - the classic topics of characterisation, incidental question, and renvoi; and - right to appeal in case of errors in the application of foreign law. Practitioners dealing with these notoriously difficult cases will welcome this in-depth treatment of the issues, as will interested policymakers throughout the EU Member States and at the EU level itself. Scholars will discover an incomparable comparative analysis leading to expert recommendations in European private international law, opening the way to an

Dit boek bespreekt de grondslagen van het conflictenrecht alsmede de wijze waarop het conflictenrecht en het vreemde recht worden behandeld in gerechtelijke en arbitrale procedures. De eerste hoofdstukken gaan in op de historische ontwikkeling van het conflictenrecht en zijn moderne grondslagen. Daarbij wordt onder meer uiteengezet op welke wijze het internationale recht (inclusief

mensenrechten en investeringsverdragen) alsook het communautaire recht invloed kunnen uitoefenen op het conflictenrecht en het resultaat van de verwijzing. De volgende hoofdstukken gaan na hoe de grondslagen van het conflictenrecht zich vertalen naar de praktijk. Daartoe onderzoekt de auteur hoe het conflictenrecht wordt behandeld in procedures bij de rechtbanken, de gerechtshoven en de Hoge Raad en hoe het procesrecht ingrijpt op die behandeling. In dat verband blijkt dat de processuele behandeling van het conflictenrecht per instantie verschilt en dat van een volledig ambtshalve conflictenrecht geen sprake is. Vervolgens komt aan bod wat de positie is van het vreemde recht in procedures bij de rechtbanken, de gerechtshoven en de Hoge Raad, hoe de inhoud van het vreemde recht moet worden vastgesteld en wat er dient te geschieden als dat niet lukt binnen een bekwame termijn. Ook besteedt de auteur

aandacht aan de conflictenrechtelijke belangeneis en het facultatief conflictenrecht. Tot slot wordt ingegaan op de wijze waarop het conflictenrecht een rol speelt in arbitrage. In dat verband bespreekt de auteur op welke wijze het toepasselijke recht moet worden bepaald inzake de arbitrabiliteit, de bevoegd- en bekwaamheid van partijen, de arbitrageovereenkomst, de regels die het arbitraal geding betreffen en het materiële geschil dat partijen verdeeld houdt.

Army Doctrine Reference Publication (ADRP) 3-0, *Unified Land Operations*, is the first ADRP released under Doctrine 2015. ADRP 3-0 expands on the foundations and tenets found in Army Doctrine Publication (ADP) 3-0. This ADRP expands on the doctrine of unified land operations found in ADP 3-0. The publication of ADP 3-0 shifted the Army's operational concept from full spectrum operations to unified land operations. The

Bookmark File PDF Mission Vision Nipr

doctrine of unified land operations describes how the Army demonstrates its core competencies of combined arm maneuver and wide area security through decisive action. The term decisive action replaces the term full spectrum operations as the concept of continuous, simultaneous offense, defense, stability, or defense support of civil authorities. Defense support of civil authorities replaces civil support as a task under decisive action. ADRP 3-0 expands the discussion of the foundations and tenets of unified land operations, as well as the operational framework found in ADP 3-0. Additional changes in ADRP 3-0 from the now obsolete 2011 FM 3-0, Change 1, includes a discussion of the range of military operations replacing the spectrum of conflict as well as a discussion of information collection replacing intelligence, reconnaissance, and surveillance (known as ISR). These changes

in ADRP 3-0 now better align Army doctrine with the joint discussion of the principles of joint operations. ADRP 3-0 remains generally consistent with the now obsolete 2011 FM 3-0, Change 1, on key topics while adopting updated terminology and concepts as necessary. These topics include the discussion of an operational environment and the operational and mission variables, as well as the discussions of unified action, law of land warfare, and combat power. As in the now obsolete 2011, FM 3-0, Change 1, mission command remains both a philosophy of command and a warfighting function. Finally, ADRP 3-0 maintains combined arms as the application of arms that multiplies Army forces' effectiveness in all operations. ADRP 3-0 contains four chapters: Chapter 1 shortens the discussion of the operational environment found on the now obsolete 2011 FM 3-0, Change 1, and emphasizes

military operations. This chapter provides a framework of variables of an operational environment that shape their nature and affect outcomes. The chapter then discusses unified action and joint operations as well as land operations. Finally, this chapter discusses law of land warfare and combined arms. Chapter 2 introduces the Army's new operational concept of unified land operations. It discusses how commanders apply landpower as part of unified action to defeat the enemy on land and establish conditions that achieve the joint force commander's end state. Chapter 2 discusses how commanders demonstrate the Army's new core competencies of combined arms maneuver and wide area security conducted through decisive action. Chapter 3 discusses combat power and the warfighting functions used to generate combat power in support of unified land operations. As in the now obsolete 2011 FM 3-0, Change 1, chapter 3

Bookmark File PDF Mission Vision Nipr

discusses the eight elements of combat power that include the six warfighting functions with leadership and information. Lastly, it discusses how Army forces achieve combined arms through force tailoring, task organization, and mutual support. Chapter 4 discusses the elements of operational art and the meaning of operational art to Army forces. It elaborates on commanders and staffs applying the elements of operational art to understand, visualize, and describe how to establish conditions to achieve a desired end state. It discusses how operational art represents a creative approach to dealing with the direction of military forces and expresses an informed vision across the levels of war.
