First Interview. In this counselling client case study I am discussing Janine, she was a 46 years old female. Janine was of slim build and her posture was mostly upright, however rolled her shoulders forward in the chair and this made her look less assuming. Janine sat very neatly looking relaxed and she had a confident tone when she spoke, was dressed well, wearing a smart black t-shirt and cream cord trousers, a well presented lady, her hair straightened, all together a well-maintained image.

Case studies are a qualitative research method that offers a complete and in-depth look into some of the situations that baffled medical science. They document the cases that escape the ordinary in a hospital that has seen a manifold of plights. They serve as cautionary tales of the intricacy in dealing with human health.
