important? What does it offer, especially now? Blending commentary with memoir, Ulin addresses the importance of the simple act of reading in an increasingly digital culture. Reading a book, flipping through hard pages, or shuffling them on screen - it doesn't matter. The key is the act of reading, and it's seriousness and depth. Ulin emphasizes the importance of reflection and pause allowed by stopping to read a book, and the accompanying focus required to let the mind run free in a world that is not one's own. Are we willing to risk our collective interest in contemplation, nuanced thinking, and empathy? Far from preaching to the choir, *The Lost Art of Reading* is a call to arms, or rather, to pages.

The new introduction and afterword bring fresh relevance to this insightful rumination on the act of reading--as a path to critical

thinking, individual and political identity, civic engagement, and resistance. The former LA Times book critic expands his short book, rich in ideas, on the consequence of reading to include the considerations of fake news, siloed information, and the connections between critical thinking as the key component of engaged citizenship and resistance. Here is the case for reading as a political act in both public and private gestures, and for the ways it enlarges the world and our frames of reference, all the while keeping us engaged.

A Christian Perspective on the Joys of Reading Reading has become a lost art. With smartphones offering us endless information with the tap of a finger, it's hard to view reading as anything less than a tedious and outdated endeavor. This is particularly

Time David Lullin problematic for Christians, as many find it difficult to read even the Bible consistently and attentively. Reading is in desperate need of recovery. Recovering the Lost Art of Reading addresses these issues by exploring the importance of reading in general as well as studying the Bible as literature, offering practical suggestions along the way. Leland Ryken and Glenda Faye Mathes inspire a new generation to overcome the notion that reading is a duty and instead discover it as a delight.

Turn Every Walk into a Game of Detection When writer and navigator Tristan Gooley journeys outside, he sees a natural world filled with clues. The roots of a tree indicate the sun's direction; the Big Dipper tells the time; a passing butterfly hints at the weather; a sand dune reveals prevailing wind; the scent of cinnamon suggests

altitude; a budding flower points south. To help you understand nature as he does, Gooley shares more than 850 tips for forecasting, tracking, and more, gathered from decades spent walking the landscape around his home and around the world. Whether you're walking in the country or city, along a coastline, or by night, this is the ultimate resource on what the land, sun, moon, stars, plants, animals, and clouds can reveal—if you only know how to look!

Readers may be familiar with such things as natural weather forecasting, basic tracking and natural navigation, but this guide will reveal intriguing new lessons, including telling the time and date using the stars and detecting which animals are around by listening to birdsong.

Explains a process of navigation that relies on natural phenomenon and describes techniques followed by ancient people involving the Sun, Moon, tides, currents, wind, and the horizon that can be used to determine direction and ensure arrival at a safe destination.

Phrenology was the most popular mental science of the Victorian age. From American senators to Indian social reformers, this new mental science found supporters around the globe. *Materials of the Mind* tells the story of how phrenology changed the world—and how the world changed phrenology. This is a story of skulls from the Arctic, plaster casts from Haiti, books from Bengal, and letters from the Pacific. Drawing on far-flung museum and archival collections,
