The story of the mysterious, ancient priesthood with a mission to preserve their secret knowledge to help humanity - but also to control the development of the world.

For many years now there has been an upsurge in revelation stories and alternative viewpoints on man's history. People such as Graham Hancock and Lawrence Gardner have brought to light many new ideas and many new problems. Now there is a new theory which is all-encompassing and clearly brings into focus a more sinister reason behind the emergence of civilisation. In his theory on Atlantis Graham Hancock is receiving much admiration and academic acclaim. Standard academic thought is more towards the spontaneous eruption of civilisation across the globe, with little or no explanation of why there are so many similarities between the cultures. Now, Philip Gardiner, in his new book THE SHINING ONES is set to turn even this upon its head. The theory is so simple that it begs the question, why has it not been thought of before? The reason for universal similarity of architecture, language, art, travel and religious belief is quite simply an ancient and secret religious brotherhood who have hidden themselves deep within the symbols, ciphers and codes of our ancient texts for hundreds of years. They held a secret knowledge and power base which spread with them across the globe. The very title that they have given themselves is hidden within the standard text and religious books we use every day -- The Shining Ones. Put like this, the whole thing can sound like an X-Files conspiracy theory. However the author has invested huge amounts of time and energy checking, researching and seeking the advice of academics. Now the theory is attracting the attention of historians who can see that the patterns are as subtle as this author proposes. The fact is, this theory does explain away all the problems with dating and variations that people such as Hancock have come up against. Many academics and especially Egyptologists are now turning to this way of thinking and with Gardiners spirit and broad knowledge in history and language the history of the ancients and the secrets that they hold are becoming more clear. There are of course dissenters. The author has been accosted for his standpoint and there are still those hardened academics and even non-academics who refuse to even listen. However, there is a major TV documentary in pre-production stages and with interviews planned across the nation on radio and TV the message may soon be accepted as a credible theory.

The Shining Ones were members of an advanced culture that was almost lost; but their wisdom and their power survived. They preserved the secrets of their advanced knowledge in mythology and legend; they embedded their secret codes in symbolism in art, architecture, the mystery traditions and literary works - including the Bible. The authors have found traces of the influence of The Shining Ones in all the major religions with roots in the ancient world. Gardiner and Osborn have discovered that their secrets and rituals have been hidden and preserved through the centuries, by the Knights Templar, the Rosicrucians and the Freemasons to the present day. Furthermore, they believe that the evolution of civilization has been manipulated by a secret and powerful group of initiates descended from The Shining Ones. They can identify their influence behind science, religion, mysticism and philosophy - and, of course, in the arena of powerful politics. This is an extraordinary story of intrigue and power play at a very human and political level. But it is also the revelation that the Shining Ones had knowledge of the deep spiritual truth that lies at the heart of mankind's yearning for an understanding of the meaning of life and to achieve salvation.

This is the extraordinary story of the discovery of the ultimate secrets of some of the world's most enigmatic mysteries - including the Holy Grail, the Elixir of Life and the Philosopher's Stone.

Secrets of the Serpent: In Search of the Sacred Past by Philip Gardiner Across time and across the world, an ancient serpent cult once dominated mankind. Then a great battle ensued and Christianity stamped it's authority on the face of the planet. Now, after years of research, the real religious history of the world can be told. In Secrets of the Serpent, Philip Gardiner for the first time reveals the world's most mysterious places were once sacred to the Serpent Cult. The history and mythology of the so-called reptilian agenda and alien visitation in ancient times now has a solid opponent - giving answers for the many symbols and myths often confused by those who believe in such things. In Secrets of the Serpent, the author reveals the real "bloodline" spoken of by Dan Brown in the Da Vinci Code- it was in fact a serpent bloodline. Philip Gardiner is the international best selling author of The Shining Ones, The Serpent Grail, Gnosis: The Secret of Solomon's Temple Revealed and Proof - Does God Exist? He has appeared on hundreds of radio and television programs worldwide speaking on religion and propaganda. He has infiltrated various secret societies and been initiated into Orders many people had thought were long forgotten. Committed to the constant struggle to uncover the real history of mankind and the unraveling of manipulative propaganda, he has come up against many obstacles and yet in his book, The Serpent Grail he reveals a truth about the Holy Grail that gained the backing of academia and scholars. The truth shall be found in the Secrets of the Serpent

Solomon's Temple in Jerusalem-reputed to be the source of the most esoteric knowledge in human history-has fascinated scholars, seekers, and dreamers for centuries. For generations, scholars and researchers have tried in vain to discover the fabled Temple of Solomon, only to be confronted by one problem after another. All the problems raised by these disparate and often desperate people have now been fully answered and can be revealed to the world. Through his own involvement in secret societies and his tenacious spirit, Philip Gardiner has unearthed the secrets of the Temple. From the Queen of Sheba and the arcane secrets of the Christian Gnostics to the Muslim Sufi and Hindu Avatars, Gnosis weaves a tale that is both profound and precise. Gardiner declares that the truth of Solomon's Temple has been known all along within the realm of esoteric understanding. Only one question remains: Is the world ready for the truth? Find the true secret of the Knights Templar and the mysteries of the ancients. Find the truth for yourself in Gnosis.

Yet again, Gardiner finds himself on a journey across the world to uncover the ancient secrets of the worlds most powerful men.

The Introduction of the book indicates the necessity to start with the archaeology of the early settlements of the West Bank of the Nile , a territory to be considered as the mother or matrix of all Egyptian civilization. It establishes the pioneer nature of this Etymological Essay in the English language, as most of the studies in keeping with its findings are to be found in the scholarly literature of Europe and North Africa. 1. Archaic Terminology: The chapter traces the origins of early settlements of the northwestern region of Egypt, the desert oases, the Fayum, the region of the Lakes, and the western portion of the delta of the Nile, by Saharan and Libyan archaic people, with specific emphasis on archaic topography which can be directly related to Modern Amazigh spoken today in North Africa (Tamazirt.) 2.The Pillar People: The review of a number of terms from the mythology and ceremonial procedures of dynastic Egypt shows the influence of those early settlers named The People of the Pillars (Intui) on the beliefs and practices perpetuated through centuries in Egypt, and the presence of an all pervasive worship of these early origins: (cult of ancestors.) 3.The Holy rulers of First Princes of Egypt: An intensive comparative review of ancient Egyptian and Modern Amazigh terms reveals that the first noble rulers of the area were of Amazigh origin. A series of families of terms link quite clearly a number of beliefs and practices to the North African cultural complex. 4.Tehuti, time and the Wisdom of the stars is a chapter delving a little more deeply into the cosmogony and cosmology of the early Egyptians, and the roots of that knowledge in archaic practices, which have parallel indicators in North Africa. 5. The Innermost Shrine from The Book of the Dead: The geography of the Land of the Beyond, Tu-at (Du-Ament), and a variety of important indices throughout the Book of the Dead indicate quite clearly that the final return of the defunct to the Blessed Land of the Ancestors was also a step by step description of their claim of descent from these original beings. The rule of "Ma-aa-at," the organizing principle of an entire civilization for centuries, or "NTR," originated in the area of the Sacred lakes and the ancient settlements of the Fayum and oasis complex. Linguistic comparison with Modern Amazigh continues to indicate the kinship of those people with North African Imazighen (also known as Berbers.) 6. A Conclusion, Notes, and an Appendix, which is the reproduction of an article published in The Amazigh Voice, a publication of the Amazigh Cultural Association in America, indicate the pioneer aspect of such a work and the direction in which further linguistic studies could bring increasing light into areas of Egyptian scholarship heretofore deemed as obscure and/or of barbarous origin. .

The Bond Code is the remarkable story of how Fleming's association with the occult world led him to create a masterful series of clever clues, ciphers, and codes within his books. Philip Gardiner finally unravels the secret of James Bond piece by piece from the novels and films used to create his aura of mystique. This book not only introduces new material, but also radically reappraises everything we thought we knew about Bond - and his creator.
