What do who's and whose mean? Whose is the possessive form of the pronoun who, while who's is a contraction of the words who is or who has.. However, many people still find whose and who's particularly confusing because, in English, an apostrophe followed by an s usually indicates the possessive form of a word.(For example, a purse belonging to a woman is "the woman's purse.")

****When not purchasing directly from the official sales agents of the WHO, especially at online bookshops, please note that there have been issues with counterfeited copies. Buy only from known sellers and if there are quality issues, please contact the seller for a refund.**** Female Genital Tumours is the fourth volume in the 5th edition of the WHO series on the classification of human tumours. This series (also known as the WHO Blue Books) is regarded as the gold standard for the diagnosis of tumours and comprises a unique synthesis of histopathological diagnosis with digital and molecular pathology. These authoritative and concise reference books provide indispensable international standards for anyone involved in the care of patients with cancer or in cancer research, underpinning individual patient treatment as well as research into all aspects of cancer causation, prevention, therapy, and education. What's new in this edition? The 5th edition, guided by the WHO Classification of Tumours Editorial Board, will establish a single coherent cancer classification presented across a collection of individual volumes organized on the basis of anatomical site (digestive system, breast, soft tissue and bone, etc.) and structured in a systematic manner, with each tumour type listed within a taxonomic classification: site, category, family (class), type, and subtype. In each volume, the entities are now listed from benign to malignant and are described under an updated set of headings, including histopathology, diagnostic molecular pathology, staging, and easy-to-read essential and desirable diagnostic criteria. Who should read this book? - Pathologists - Oncologists - Cancer researchers - Surgeons - Epidemiologists - Cancer registrars This volume - Prepared by 191 authors and editors - Contributors from around the world - More than 850 high-quality images - More than 3100 references

Beatrice is so well-known for never making a mistake that she is greeted each morning by fans and reporters, but a near-error on the day of the school talent show could change everything.

With straightforward advice and informative readings of the great Greek texts, the authors show how we might still save classics and the Greeks for future generations. Who Killed Homer? is must reading for anyone who agrees that knowledge of classics acquaints us with the beauty and perils of our own culture.

Reluctant millionaire and small town reporter Jim Qwilleran and his cats, Koko and Yum Yum, confront a new mystery when octogenarian Thelma Thackerary returns to Moose County to turn the old opera house into a film club. Reprint.

The World Health Organization (WHO), as the United Nations specialized agency for health, has been at the centre of international health cooperation for over sixty years. With origins dating from the nineteenth century, WHO's mandate is the attainment by all people of the highest possible level of health. The huge challenge of fulfilling this objective has not only required high-level technical skills, but has led the organization to engage with a broad range of political and economic interests. WHO has enjoyed many high-profile successes such as the global eradication of smallpox and SARS, and ongoing campaigns against polio and other diseases. On other issues, such as essential drugs, tobacco control and diet and nutrition, efforts to tackle the broader determinants of health has brought the organization into contact with issues such as globalization, poverty, social justice and human rights. Kelley Lee analyzes the WHO's role in international cooperation, examining its changing structures, key programmes and individuals. Of particular focus are the challenges WHO has faced in recent years given the emergence of other global health initiatives and how WHO has sought to remain effective as the "world's health conscience" within an increasingly complex global context.

In Brokers Who Dominate, you will learn the strategies and tactics, marketing approaches, prospecting platforms and support structures of some of the most successful commercial real estate brokers in North America.

In her amazing diary, Anne Frank revealed the challenges and dreams common for any young girl. But Hitler brought her childhood to an end and forced her and her family into hiding. Who Was Anne Frank? looks closely at Anne's life before the secret annex, what life was like in hiding, and the legacy of her diary. Black-and-white illustrations including maps and diagrams provide historical and visual reference in an easy-to-read biography written in a way that is appropriate and accessible for younger readers.
